Subway-Elevated, Street Car and Bus Lines

PHILADELPHIA TRANSPORTATION COMPANY

LATE-AT-NIGHT SCHEDULES

PHILADELPHIA TRANSPORTATION CO.

The schedules which follow show leaving times and running times (operating times from end of line to time points) of late-at-night cars and buses on all PTC lines. Leaving times are shown in the following order: (1) **Early Cars,** which are cars in early morning service, starting with the first "day" car. (2) **Late Cars,** which are cars in after-midnight service, ending with the last "day" car. **All-night (owl) cars on routes which have all-night service are listed under "Late Cars", following the word "Daily". Owl cars have the same schedule on weekdays, Saturdays and Sundays.**

Running times given are for the "owl" cars on lines which have all-night service. The running times of the earlier and later cars are usually slightly greater than the times shown.

Weekdays, as used in this schedule, mean Mondays through Fridays, excluding Saturdays and Sundays.

In the "Late Car" schedules, Saturdays mean Saturday nights, and since all times given are after midnight, Saturdays are in reality early Sunday mornings. In the same way, Sundays are in reality early Monday mornings.

Schedules in this booklet are effective Sept. 7, 1941. They are subject to change without notice. If extensive changes are made, a new booklet will be issued, and a notice that it is available will appear in the **PTC Traveler,** the read-as-you-ride pamphlet which is distributed on all PTC equipment. In any event, a new booklet will be issued on or about June 14, 1942. Copies of the late-at-night schedule may be obtained by addressing a postcard to PTC Public Relations Department, Broad and Locust Streets, Philadelphia.

PREVIOUS ISSUES of this booklet have shown all cars operating after midnight. In the case of many routes, however, cars are now operating on frequent schedules between midnight and 1.00 or 1.30 A.M. These schedules, furthermore, are subject to frequent changes because of changing conditions in defense industries, and they have therefore been omitted from this booklet. Up-to-date information on any route may be obtained by calling PTC, PENnypacker 6100 . . . and asking for "Information". . . . This bureau is operated day and night for your convenience.
